PROFESSIONAL SUMMARY

Flutter Developer with 2.5+ years of experience building and shipping production-ready cross-platform mobile apps for iOS and Android. Delivered 5+ live apps on the App Store and Google Play Store. Skilled in Clean Architecture, Riverpod/GetX/Bloc, REST APIs, Firebase, Socket.IO, WebRTC, and payment gateways (Stripe, RevenueCat, Amar Pay). Available immediately for remote or onsite roles.

WORK EXPERIENCE

Flutter Developer

SperkTech

Jan 2024 ? Present

Dhaka, Bangladesh

Building and maintaining production Flutter applications for iOS and Android. Working with real-time features, payment integrations, and clean architecture patterns.

- Shipped 2 apps to App Store and Play Store from scratch
- Integrated Stripe payment gateway and RevenueCat subscriptions
- Implemented real-time chat using Socket.IO
- Reduced app crash rate by 40% through systematic error handling

Flutter Developer

SoftVence

Jun 2023 ? Dec 2023

Dhaka, Bangladesh

Developed cross-platform mobile applications with focus on UI/UX quality and performance optimization.

- Built 2 client-facing apps with 4.5+ App Store rating
- Implemented BLoC pattern for scalable state management
- Integrated WebRTC for video calling feature
- Delivered projects on time with zero post-release critical bugs

Flutter Development Intern

Daffodil International University

Jan 2023 ? May 2023

Dhaka, Bangladesh

Internship focused on Flutter mobile app development, learning industry practices and contributing to university projects.

- Built a university event management mobile app
- Learned clean architecture and best practices under mentorship
- Contributed to open-source Flutter packages
