PROFESSIONAL SUMMARY

Mobile App Developer with hands-on experience building cross-platform Android and iOS applications using Flutter and Dart. Proficient in REST API integration, Firebase backend services, and state management solutions. Experienced in delivering production-ready apps published on Google Play Store and Apple App Store. Committed to writing clean, maintainable code and creating intuitive, user-friendly mobile experiences.

WORK EXPERIENCE

Jr. Flutter Developer

SperkTech | [sparktech.agency](#)

Aug 2025 – Present

Dhaka, Bangladesh

- Developing and maintaining cross-platform mobile applications using Flutter and Dart for diverse client projects.
- Collaborating with design and backend teams to implement pixel-perfect UI/UX and integrate RESTful APIs.
- Participating in code reviews, sprint planning, and agile development workflows to ensure timely delivery.
- Optimizing app performance through efficient state management and clean architecture practices.

Flutter Developer

SoftVence | [softvence.agency](#)

Oct 2024 – Feb 2025

Dhaka, Bangladesh

- Built and shipped Flutter mobile applications with a focus on scalability, clean code, and responsive design.
- Integrated third-party APIs and Firebase services including Authentication, Firestore, and Cloud Storage.
- Implemented state management solutions to handle complex UI flows and real-time data synchronization.
- Worked closely with cross-functional teams to translate product requirements into polished mobile experiences.

Flutter Developer (Intern)

Daffodil International University

Nov 2023 – Jan 2024

Dhaka, Bangladesh

- Developed Flutter mobile applications with proficiency in Dart programming and object-oriented principles.
- Implemented robust API integration and Firebase backend services for real-time data management.
- Utilized advanced state management with GetX for optimized app performance and reactive UI updates.
- Collaborated with cross-functional teams to implement UI/UX designs and maintained high-quality coding standards.

PROJECTS

Project Finder — [App Store](#)

May 2025 – Oct 2025

- Engineered a scalable subscription infrastructure incorporating auto-renewal, comprehensive billing processes, and secure account-based management for an enhanced user experience.
- Devised a project discovery platform that matched users with relevant opportunities using advanced

filtering and recommendation algorithms, elevating engagement and platform adoption rates.

- Published successfully on the Apple App Store with full compliance to App Review guidelines.

Hiye – Health Companion App — *Google Play*

Nov 2023 – Jan 2024

- Built a comprehensive health companion app enabling users to monitor blood pressure and diabetes data with intuitive tracking interfaces.
- Implemented features for health Q&A, healthcare blog access, and appointment scheduling with a user-friendly UI.
- Integrated Firebase backend for real-time data storage and user authentication across the platform.

TECHNICAL SKILLS

Languages:	Dart, C, C++, HTML, CSS
Framework:	Flutter (Android & iOS)
State Management:	GetX, Provider, BLoC
Backend & APIs:	REST API Integration, Web API, Firebase (Firestore, Auth, Storage, Realtime Database)
Tools & Platforms:	Git, GitHub, Postman, Android Studio, VS Code, Xcode
Architecture:	MVC, Clean Architecture, Object-Oriented Programming
App Distribution:	Google Play Store, Apple App Store, TestFlight

EDUCATION

B.Sc. in Software Engineering (Major: Cyber Security) <i>Daffodil International University</i>	Jan 2020 – Jul 2024 <i>Dhaka, Bangladesh</i>
CGPA: 3.50 / 4.00	
HSC in Science <i>Ghatail Cantonment Public School & College</i>	May 2018 – Dec 2019 <i>Dhaka, Bangladesh</i>

LANGUAGES

Bengali:	Native
English:	Independent User (B2 – Listening, Reading, Writing, Speaking)
