

MSc AI Engineering

Self-indication of admission requirements and selection criteria

Application number:	3558629
Surname/Family name:	RAFI
First name/Given name:	MD MODACHER MAHMUD
Date of birth:	24/10/2001
Bachelor's degree:	Software Engineering
Awarding University (name and place):	Daffodil International University

Remember: filling out the form as well as possible will make the application process smoother and faster.

Admission requirements

Please list all courses in your degree program that you have successfully passed in the form below.

Course title ¹	Institution ²	Grade	Credit hours ³
Computer Fundamentals	Daffodil International University	A-	3
Computer Fundamentals Lab	Daffodil International University	A	1
Introduction to Software Engineering	Daffodil International University	A+	3
English I	Daffodil International University	A+	3
Art of Living	Daffodil International University	A	3
Structured Programming	Daffodil International University	A+	3
Structured Programming Lab	Daffodil International University	A-	1
Discrete Mathematics	Daffodil International University	A	3
Mathematics I	Daffodil International University	A	3
Physics I	Daffodil International University	A-	3
Software Development Capstone Project	Daffodil International University	A+	3
Data Structure	Daffodil International University	A	3
Data Structure Lab	Daffodil International University	A-	1
Mathematics II	Daffodil International University	A+	3
Statistics I	Daffodil International University	A	3
Object Oriented Concepts	Daffodil International University	A	3
Software Requirement	Daffodil International University	B	3

Specifications & Analysis			
Algorithms Design & Analysis	Daffodil International University	A+	3
Algorithms Design & Analysis Lab	Daffodil International University	A+	1
Digital Electronics & Logic Design	Daffodil International University	A-	3
Object Oriented Design	Daffodil International University	B+	3
Database System	Daffodil International University	A+	3
Database System Lab	Daffodil International University	A+	1
Data Communication & Computer Networking	Daffodil International University	A+	3
Data Communication & Computer Networking Lab	Daffodil International University	A+	1
Computer Architecture	Daffodil International University	A	3
System Analysis & Design Capstone Project	Daffodil International University	A-	3
Theory of Computing	Daffodil International University	A+	3
Principles of Accounting, Business & Economics	Daffodil International University	A+	3
Operating System & System Programming	Daffodil International University	A-	3
Operating System & System Programming Lab	Daffodil International University	A	1
Design Pattern	Daffodil International University	A-	3
Software Quality Assurance & Testing	Daffodil International University	A+	3
Software Quality Assurance & Testing Lab	Daffodil International University	A-	1
Bangladesh Studies	Daffodil International University	A	3
Software Engineering Web Application	Daffodil International University	A	3
Software Engineering Web Application Lab	Daffodil International University	A	1
Software Architecture & Design	Daffodil International University	B	3
Business Analysis & Communication	Daffodil International University	C+	3
Software Engineering Design	Daffodil International University	B+	3

Capstone Project			
Information System Security	Daffodil International University	C+	3
Artificial Intelligence	Daffodil International University	A+	3
Artificial Intelligence Lab	Daffodil International University	B+	1
Software Project Management & Documentation	Daffodil International University	A	3
Compiler Design	Daffodil International University	B-	3
Management Information System	Daffodil International University	B+	3
Software Engineering Professional Ethics	Daffodil International University	A+	3
Introduction to Robotics	Daffodil International University	A	3
Introduction to Machine Learning	Daffodil International University	A+	3
Introduction to Data Science and Data Management & Analysis	Daffodil International University	B	2
Introduction to Data Science and Data Management & Analysis Lab	Daffodil International University	A-	1
Statistical Data Analysis	Daffodil International University	A	2
Statistical Data Analysis Lab	Daffodil International University	A-	1
Machine Learning Driven Data Analysis I	Daffodil International University	A	2
Machine Learning Driven Data Analysis Lab I	Daffodil International University	C	1
Machine Learning Driven Data Analysis II and Communicating Data Insights	Daffodil International University	B	2
Machine Learning Driven Data Analysis II and Communicating Data Insights Lab	Daffodil International University	B+	1
Data Science Major Capstone Project	Daffodil International University	A+	6

¹Please indicate the title of the course, e.g. “Introduction to Computer Science”, or similarly. Avoid abbreviations. ²Please indicate the institution that awarded the certificate for the course. ³Please indicate the – unweighted - number of credits (in units at your University) you received for the successful completion of the course. Do not worry about converting your credits into ECTS – we will sort it out. If you have completed additional courses at a different university (e.g. during an exchange programme or as part of another degree such as an additional master’s), please, add them to the list as well.

Required credits and module catalogue of your Bachelor's degree

Please state how many **credits** (or equivalent units) are necessary **to complete** your Bachelor's degree, independently whether you already have acquired them or are going to:

145 credit is required; 145 credit is successfully Completed(CGPA 3.61)

Please also provide a **link to the module catalogue/syllabus** of your Bachelor's degree programme. If you are unable to provide a link, please upload the module catalogue together with the other files.

<https://daffodilvarsity.edu.bd/departmentswe> | Full module catalogue uploaded with this form.

Individual Contribution

Was your dissertation/thesis/final year project an individual project or a group project? In case you have been collaborating with others, please indicate below your individual contribution. Mention not only the technical, but also methodological or project-related aspects.

The undergraduate thesis 'Machine Learning Approach to Predict Flood in Bangladesh from Historical Data' was an individual project under the supervision of Mr. Khalid Been Badruzzaman Biplob (Lecturer, Dept. of SWE, Daffodil International University). I was solely responsible for: (1) problem formulation and literature review; (2) data collection from the Bangladesh Meteorological Department - 21,120 records across 34 stations (1948-2013); (3) data engineering - cleaning, feature engineering, encoding, scaling, 80/20 split; (4) implementation of six regression models (Polynomial, Random Forest, KNN, Gradient Boosting, XGBoost, MLP) in Python; (5) evaluation via R2 and RMSE - KNN (R2 = 0.90) was the best performer.
