

MSc AI Engineering

Self-indication of admission requirements and selection criteria

Application number:	
Surname/Family name:	Mahmud Rafi
First name/Given name:	Md. Modacher
Date of birth:	
Bachelor's degree:	B.Sc. in Software Engineering (Major in Data Sc
Awarding University (name and place):	Daffodil International University, Dhaka, Banglac

Remember: filling out the form as well as possible will make the application process smoother and faster.

Admission requirements

Please list all courses in your degree program that you have successfully passed in the form below.

Course title ¹	Institution ²	Grade	Credit hours ³
Computer Fundamentals	Daffodil International University	A-	3
Computer Fundamentals Lab	Daffodil International University	A	1
Intro to Software Engineering	Daffodil International University	A+	3
English I	Daffodil International University	A+	3
Art of Living	Daffodil International University	A	3
Structured Programming	Daffodil International University	A+	3
Structured Programming Lab	Daffodil International University	A-	1
Discrete Mathematics	Daffodil International University	A	3
Mathematics I	Daffodil International University	A	3
Physics I	Daffodil International University	A-	3
Software Dev. Capstone Project	Daffodil International University	A+	3
Data Structure	Daffodil International University	A	3
Data Structure Lab	Daffodil International University	A-	1
Mathematics II	Daffodil International University	A+	3
Statistics I	Daffodil International University	A	3
Object Oriented Concepts	Daffodil International University	A	3
Software Req. Specs & Analysis	Daffodil International University	B	3
Algorithms Design & Analysis	Daffodil International University	A+	3
Algorithms Design & Analysis I	Daffodil International University	A+	1
Digital Electronics & Logic	Daffodil International University	A-	3
Object Oriented Design	Daffodil International University	B+	3
Database System	Daffodil International University	A+	3
Database System Lab	Daffodil International University	A+	1
Data Comm. & Networking	Daffodil International University	A+	3
Data Comm. & Networking Lab	Daffodil International University	A+	1
Computer Architecture	Daffodil International University	A	3
System Analysis & Design Cap	Daffodil International University	A-	3
Theory of Computing	Daffodil International University	A+	3
Accounting, Business & Econo	Daffodil International University	A+	3
OS & System Programming	Daffodil International University	A-	3
OS & System Programming La	Daffodil International University	A	1
Design Pattern	Daffodil International University	A-	3
Software QA & Testing	Daffodil International University	A+	3

Course title	Institution	Grade	Credit points
Software QA & Testing Lab	Daffodil International University	A-	1
Bangladesh Studies	Daffodil International University	A	3
SE Web Application	Daffodil International University	A	3
SE Web Application Lab	Daffodil International University	A	1
Software Architecture & Design	Daffodil International University	B	3
Business Analysis & Communication	Daffodil International University	C+	3
SE Design Capstone Project	Daffodil International University	B+	3
Information System Security	Daffodil International University	C+	3
Artificial Intelligence	Daffodil International University	A+	3
Artificial Intelligence Lab	Daffodil International University	B+	1
SE Project Mgmt & Documentation	Daffodil International University	A	3
Compiler Design	Daffodil International University	B-	3
Management Information Systems	Daffodil International University	B+	3
SE Professional Ethics	Daffodil International University	A+	3
Introduction to Robotics	Daffodil International University	A	3
Intro to Machine Learning	Daffodil International University	A+	3
Data Science & Data Mgmt + Lab	Daffodil International University	B / A-	3
Statistical Data Analysis + Lab	Daffodil International University	A / A-	3
ML Driven Data Analysis I + Lab	Daffodil International University	A / C	3
ML Driven Data Analysis II	Daffodil International University	B	2
ML Driven Data Analysis II Lab	Daffodil International University	B+	1
Data Science Capstone Project	Daffodil International University	A+	6

¹Please indicate the title of the course, e.g. "Introduction to Computer Science", or similarly. Avoid abbreviations.

²Please indicate the institution that awarded the certificate for the course. ³Please indicate the – unweighted – number of credits (in units at your University) you received for the successful completion of the course. Do not worry about converting your credits into ECTS – we will sort it out. If you have completed additional courses at a different university (e.g. during an exchange programme or as part of another degree such as an additional master's), please, add them to the list as well.

Required credits and module catalogue of your Bachelor's degree

Please state how many **credits** (or equivalent units) are necessary **to complete** your Bachelor's degree, independently whether you already have acquired them or are going to:

147 credits required; 145 credits successfully completed (CGPA 3.61).

Please also provide a **link to the module catalogue/syllabus** of your Bachelor's degree programme. If you are unable to provide a link, please upload the module catalogue together with the other files.
